Professional Summary

Applied AI Engineer with 2.5+ years of experience building AI-powered applications, RAG systems, LLM workflows, and client-facing web products. Delivered multiple projects across legal, finance, media, ecommerce, healthcare, and business domains, combining AI engineering, product development, and remote collaboration to create production-ready solutions for clients and startups.

Experience

Full Stack Developer / Product Platform Developer,

06/2026 – Present

Econ Building Center / DadiMa Superfood

- Built a responsive product catalog platform with categories, variants, product detail pages, cart-style flow, compliance pages, and distributor/customer CTAs.
- Owned admin-supported product/category workflows, client review preparation, metadata, release readiness, and business-ready handoff.

Stack: Frontend engineering, admin CRUD, catalog UX, responsive UI, production handoff.

AI Full Stack Developer, Xbot Startup

01/2026 – Present

- Delivered responsive client websites across interiors, dental, restaurant, ecommerce, real estate, creator, portfolio, and invitation use cases.
- Worked with a small remote team while handling frontend implementation, testing, client communication, stakeholder updates, and technical handoff.

Stack: React, Next.js, Vite, TypeScript, JavaScript, Tailwind CSS, responsive frontend delivery.

Applied AI Engineer, micro1

04/2026 – 05/2026

- Created, tested, and refined prompts to improve LLM response quality, instruction following, clarity, completeness, task relevance, and response usefulness.
- Reviewed model outputs for accuracy, safety, consistency, tone, reasoning quality, and delivered structured annotation and response-ranking feedback.

Stack: Prompt engineering, LLM evaluation, response ranking, AI QA.

Applied AI Engineer, Product R&D

01/2024 – 01/2026

- Built Python-first AI product prototypes for legal document intelligence, financial analytics, and media/content intelligence workflows.
- Designed LLM user flows with document parsing, retrieval, prompt orchestration, AI analysis, data visualization, cited outputs, and PDF reporting.

Stack: Python, Streamlit, FastAPI, LangGraph, ChromaDB, Pandas, Plotly, ReportLab.

Education

B.Tech in Computer Science & Engineering, MAKAUT

- CGPA: 7.8/10

2022 – 2026

West Bengal, India

Technical Skills

AI & LLMs

Prompt engineering/refinement, LLM evaluation, response ranking, AI QA, RAG, LangChain, LangGraph, vector embeddings, fine-tuning concepts, LoRA / QLoRA, agentic workflows.

Data & Vector DBs

ChromaDB, vector databases, SQLite, PostgreSQL, semantic search, document parsing, cited answers, structured data.

Soft Skills

Remote collaboration, client communication, stakeholder updates, leadership ownership, documentation, structured feedback, problem solving, product thinking.

Python / Data

Python, FastAPI, Streamlit, Pandas, NumPy, Scikit-learn, forecasting, anomaly detection, Plotly, PDF/report generation.

Development

React, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, REST APIs, admin CRUD, responsive UI, production handoff, SEO-ready structure.

Projects

DadiMa Superfood - Client Product Platform [↗](#)

Built product catalog, variant-style product pages, compliance content, distributor/customer CTAs, and business-ready deployment.

LexiQ - Legal Document AI [↗](#)

Analyzes uploaded legal documents with parsing, semantic retrieval, cited answers, page references, and risk flags.

FinanceIQ - Financial Analytics AI [↗](#)

Turns transaction CSVs into dashboards, forecasting, anomaly detection, financial health scoring, and PDF reports.

SaveIQ - Media Intelligence Tool [↗](#)

Processes video/transcript inputs into summaries, content ideas, social outputs, and prompt-driven media analysis.

Certifications & Achievements

Certifications

- micro1 Applied AI Engineer
- Educosys Live GenAI Engineering Program
- Google Startup School
- Coursera Machine Learning Overview

Achievements

- National Rank 162 / 18,773, Top 1%, Naukri CodeQuezt #23
- 97/100 Mathematics
- 92/100 English
