PROFESSIONAL SUMMARY

Applied AI Engineer and B.Tech CSE graduate focused on LLM applications, RAG workflows, prompt evaluation, fine-tuning concepts, and Python AI systems. Built legal document AI, financial analytics, media intelligence, portfolio systems, and client product platforms with clear documentation, remote collaboration, and independent delivery.

TECHNICAL SKILLS

AI & LLMs: Prompt engineering/refinement, LLM evaluation, response ranking, AI QA, RAG, LangChain, LangGraph, vector embeddings, fine-tuning concepts, LoRA / QLoRA, agentic workflows.

Python / Data: Python, FastAPI, Streamlit, Pandas, NumPy, Scikit-learn, forecasting, anomaly detection, Plotly, PDF/report generation.

Data & Vector DBs: ChromaDB, vector databases, SQLite, PostgreSQL, semantic search, document parsing, cited answers, structured data.

Development: React, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, REST APIs, admin CRUD, responsive UI, production handoff, SEO-ready structure.

Soft Skills: Remote collaboration, client communication, stakeholder updates, leadership ownership, documentation, structured feedback, problem solving, product thinking.

EXPERIENCE

Full Stack Developer / Product Platform Developer (Contract) | [Econ Building Center / DadiMa Superfood](#)

Jun 2026 - Present

- Built a responsive product catalog platform with categories, variants, product detail pages, cart-style flow, compliance pages, and distributor/customer CTAs.
- Owned admin-supported product/category workflows, client review preparation, metadata, release readiness, and business-ready handoff.

Stack: Frontend engineering, admin CRUD, catalog UX, responsive UI, production handoff

Applied AI Engineer (Contract) | micro1

Apr 2026 - May 2026

- Created, tested, and refined prompts to improve LLM response quality, instruction following, clarity, completeness, task relevance, and response usefulness.
- Reviewed model outputs for accuracy, safety, consistency, tone, reasoning quality, and delivered structured annotation and response-ranking feedback.

Stack: Prompt engineering, LLM evaluation, response ranking, AI QA

AI Full Stack Developer (Freelance / Remote) | Xbot Startup

Jan 2026 - Present

- Delivered responsive client websites across interiors, dental, restaurant, ecommerce, real estate, creator, portfolio, and invitation use cases.
- Worked with a small remote team while handling frontend implementation, testing, client communication, stakeholder updates, and technical handoff.

Stack: React, Next.js, Vite, TypeScript, JavaScript, Tailwind CSS, responsive frontend delivery

Applied AI Engineer (Remote) | Product R&D

Jan 2024 - Jan 2026

- Built Python-first AI product prototypes for legal document intelligence, financial analytics, and media/content intelligence workflows.
- Designed LLM user flows with document parsing, retrieval, prompt orchestration, AI analysis, data visualization, cited outputs, and PDF reporting.

Stack: Python, Streamlit, FastAPI, LangGraph, ChromaDB, Pandas, Plotly, ReportLab

PROJECTS

[DadiMa Superfood - Client Product Platform \[Live\]](#)

Next.js, responsive catalog UX, admin-supported content flow, production handoff

- Built product catalog, variant-style product pages, compliance content, distributor/customer CTAs, and business-ready deployment.

[LexiQ - Legal Document AI \[Live\]](#)

Python, Streamlit, LangGraph, ChromaDB, OpenAI GPT-4o, PyMuPDF

- Analyzes uploaded legal documents with parsing, semantic retrieval, cited answers, page references, and risk flags.

[FinanceIQ - Financial Analytics AI \[Live\]](#)

Python, Streamlit, Pandas, Scikit-learn, Plotly, SQLite, ReportLab

- Turns transaction CSVs into dashboards, forecasting, anomaly detection, financial health scoring, and PDF reports.

[SavelQ - Media Intelligence Tool \[Live\]](#)

Python, Streamlit, Anthropic Claude API, yt-dlp, retry handling

- Processes video/transcript inputs into summaries, content ideas, social outputs, and prompt-driven media analysis.

EDUCATION

B.Tech in Computer Science & Engineering (2022-26) | MAKAUT | CGPA: 7.8/10 | Graduated June 2026

CERTIFICATIONS & ACHIEVEMENTS

- Certifications: micro1 Applied AI Engineer | Educosys Live GenAI Engineering Program | Google Startup School | Coursera Machine Learning Overview
- Achievements: National Rank 162 / 18,773, Top 1%, Naukri CodeQuezt #23 | 97/100 Mathematics | 92/100 English
